Deleting Italian Language[1]

Video: Long blank video (1:46:39)

WARNING!

- All subtitles for this language will be deleted
- Any tasks for this language will be deleted [2]
- The language can no longer be used for translations
- Translation tasks will be deleted, unless there are other public subtitles that can be used[3]

Are you sure? [   ]

Type "Yes I want to delete this language[4]" if you are sure you wish to continue

["Delete Language" button]

---

1   This page contains crucial information but it is only available in English, because the [Localization of Amara Website updates \[has been\] put on hold](#) since at least January 18, 2013.

2   This is only pertinent in teams where tasks have been enabled.

3   This is not clear.

4   This is no guarantee that the above content has been understood. Moreover, people who rely on voice recognition software that has been customized to their voice in another language than English can't do that.

Deleting English Language [5]

Video: Long blank video (1:46:39)

WARNING!

- All subtitles for this language will be deleted
- Any tasks for this language will be deleted[6]
- The language can no longer be used for translations
- Translation tasks will be deleted, unless there are other public subtitles that can be used[7]

Delete Dependent Languages

Choose dependent languages to delete. Unchecked languages will be forked[8].

☐ Italian Are you sure? [_____]

Type "Yes I want to delete this language [9]" if you are sure you wish to continue

["Delete Language" button]

---

5   This page contains crucial information but it is only available in English, because the Localization of Amara Website updates [has been] put on hold since at least January 18, 2013.

6   This is only pertinent in teams where tasks have been enabled.

7   This is not clear.

8   This is geek's jargon, and seems in contradiction with "Translation tasks will be deleted"

9   This is no guarantee that the above content has been understood. Moreover, people who rely on voice recognition software that has been customized to their voice in another language than English can't do that.
